EXPERIENCE

Software Engineer

IHS Markit Digital | July 2019 - Present

- Develop and augment front-end components, APIs, middlewares, and test suites for two of IHS Markit's largest retainer clients
- Facilitate cross functional team cohesion and build relationships
- Continually pursuing leadership and engagement opportunities

Software Developer

Techtonic | January 2019 - January 2020

- Developed web-accessible UI mockups and front-end components for Skillbase, an intuitive tech proficiency dashboard
- Built out a web application through to initial release using React/Redux, AWS services, and a SQL database
- Mentored colleagues and facilitated their growth as developers and leaders
